By Littice Bacon-Blood

A Luling teen's account about being kidnapped and raped Sunday night appears to be false, according to the St. Charles Parish Sheriff's Office.

The 14-year-old girl told her parents that she was kidnapped while walking down Davis Drive, driven to another home and sexually assaulted. She said she later escaped from the home.

"As the investigation continued, detectives began to sense that the information the teen was giving to them wasn't adding up. There were just too many inconsistencies," Sheriff Greg Champagne said in a news release Tuesday.

The girl later admitted that she fabricated the story because she feared being caught outside her home after her parents' curfew, Champagne said.

The teen may be booked with falsifying a police report, he said.
