Just recently a citizen was found 'not guilty' because the 30+ charges filed were fabricated! I think folks need to read: The Boy Who called Wolf! because real victims are being hurt with these false reports; time is money, court time is costly, prosecution/defense is outrageously costly, and no amount of money can be put on the loss (blemished) reputation of the falsely accused! Just my opinion and I'm stickin' to it! Geno L.
So who made the false rape report? What was done to the reporting party if anything?
